PROFESSIONAL SUMMARY

Backend developer with nearly 3 years of experience, specialized in Python and Django on multi-tenant SaaS platforms. I design and maintain APIs, business logic, usage metering and usage-based billing, integrations with external services, and automated processes; I also build frontends with Vue 3, so I can take a feature end to end. I come from the infrastructure and security world — I administer Linux servers and hold the ISO 27001 Foundation certification — and that shapes how I write code: I think about access, backups, and what happens when something fails.

WORK EXPERIENCE

Beex — Full-Stack Developer

February 2026 – Present · Remote

- Backend development in Python/Django on a multi-tenant SaaS platform with per-customer data isolation.
- Design and maintenance of APIs, business logic, and usage metering with usage-based billing.
- Management of per-customer permissions and credential lifecycles, and integrations via MCP and webhooks.
- Reporting, data exports, and scheduled processes.
- Full-stack development: Vue 3 frontend (Ant Design Vue, ApexCharts). I work with Git and code review.

Stack: Python · Django · PostgreSQL · REST APIs · WebSockets · Vue 3 · Docker

Sentria Security — Infrastructure & Security Engineer

November 2025 – Present · Lima, Peru · Part-time

- Linux server administration and deployment of production services.
- ISO 27001-aligned security controls: policies, vulnerability management, verified backups, and monitoring.
- Internal process automation with Google Workspace APIs (Sheets, Docs, Drive).

SALESLAND — IT Support Specialist (N2)

May 2025 – February 2026 · Lima, Peru

- Resolved tickets escalated from N1 within SLAs, with detailed fault diagnosis, and trained N1 agents.
- Managed users and devices in Active Directory; configured, maintained, and updated systems and applications.

SALESLAND — IT Assistant

September 2024 – May 2025 · Lima, Peru

- Managed users in Active Directory, installed equipment and peripherals, and supported the IT fleet.

CONETWORK — IT Support & Server Administrator

April 2024 – July 2024 · Peru

- Server administration and standardized operating procedures, reducing downtime.
- Implemented security controls and tooling across technology assets.

SOLUCIONES INNOVACIONES INTEGRALES S.A.C. — Junior Web Developer

January 2024 – March 2024 · Lima, Peru

- Built conversion-optimized, responsive landing pages with Astro, Tailwind CSS, HTML, CSS, and JavaScript (UX/UI).

EDUCATION

Universidad Peruana de Ciencias Aplicadas (UPC) — Systems Engineering · September 2025 – Present (ongoing)

CIBERTEC — Computer Science · March 2022 – February 2025

CERTIFICATIONS

Certified ISO 27001 Foundation (I27001F) — Information Security Management Systems

Linux Server Administration · Java OO: Object-Oriented Programming

TECHNICAL SKILLS

Backend: Python · Django · PostgreSQL · REST APIs · WebSockets · Git

Frontend: Vue 3 · JavaScript · Astro · Tailwind CSS · Ant Design Vue · ApexCharts

Infrastructure & Security: Linux (Debian) · Windows Server · Active Directory · Docker · ISO 27001

Integrations & Data: Google Workspace APIs · WhatsApp Business · MCP · webhooks · scraping · reporting
